

SMALL ANIMAL/EXOTIC ANIMAL RESCUE LIST

Dear Township Manager:

Below please find a list of small/exotic animal rescues. I am distributing this list to help find safe haven for any lost or stray small/exotic animals that you may have to deal with within the county. Shelters are often unable to meet the specific needs of these animals. Please feel free to utilize this list. I am a retired veterinary technician, have worked in veterinary hospitals, shelters and with many rescues. I have relationships with several area veterinarians should you need to utilize the services of any area veterinarians. I would like to act as a liaison should you find a small/exotic animal in need. If you find or get a call about a lost or stray small/exotic animal, you may contact me by phone or e-mail. I may be able to assist in arrangements to get the animal to a safe haven.
